

# Destination ROI

KDS provides a complete solution to centralize, control and automate your Travel and Expense process and spend.

By bringing together all of the Travel and Expense information, thanks to our solution **KDS Corporate**, into one central place you gain transparency right from policy creation through to expense auditing.

This process can drive immediate cost savings and efficiencies leading to true insight into your business.

- Our consultants start with your 'Destination ROI' and map out exactly how to achieve it.
- Within 3 months you can be fully implemented and start making savings.
- Adoption is the driver for ROI - so our consultants focus on 100% adoption from day one.
- KDS is committed to complete customer satisfaction, to maintaining high adoption and ROI.
- At regular intervals we ensure you are meeting your expected return.

SFR achieved ROI within months

## The KDS Executive Suite

The **KDS Executive Suite** provides a dashboard that quickly and clearly identifies how you are performing against targets.

More importantly you can see where you will end up - and any actions required to ensure your success.

- Insight - measures your key performance indicators and tracks exactly how you are performing against them
- Foresight - trends your current performance to see where you will finish against these objectives
- Actions, opportunities & early warnings give tangible deliverables to keep you on track to meet or exceed your goals
- Index views of your spending pattern mean you can drive behaviour to the most cost effective solution.

**Start actively planning ahead instead of reacting to the past!**

KDS have the people, process and technology to provide the meaningful insight & the foresight you truly need to get to your destination ROI.
