

Get everyone aligned with your Policy

Automate Travel & Expense to drive your policy

Streamline manual and disconnected process to remove bottlenecks while increasing your points of validation. From the very start of the process you can track and control employee spend and ensure complete alignment with Policy

Gain total control of policy compliance

Having **Travel & Expense** in one place means you can track and analyse every cost associated with every trip and close any loopholes to ensure policy is followed. Streamlining the audit and approval process by automating your policy will give you Insight into the application of your travel policies so you can constantly improve.

Insight through transparency to eliminate error & potential fraud

KDS provides an audit module that runs rule-based filtering procedures on expense items or on individual employees. This automated process saves money and exposes potential fraud faster than any manual audit process.
